

Curriculum Vitae

J.R.

Java/JEE developer

Executive summary:

A result-driven software engineer with strong technical background in Java technologies, database programming and Web development. Jimmy works very dedicated and precise. You can really count on him to get something done. As a social engaged person he will bring added value to any development team.

Jimmy is a rare combination of being a rather good graphical designer and a real Java-developer.

Personal Details

	<p>Name: R. First Name: J. Nationality: Belgian Children : None Date of birth: 14/07/1986 Place of birth: Herentals Drivers license: B</p>
---	--

Projects

Steria (23/10/08-05/09)

Test developer of the Schengen information system II.

Evaluation of compliance test reports from memberstates and automating the evaluation by writing tools in java.

Analyzing bugs (BTSIS) for Operational System Testing.

Evaluation of Operational System Testing reports

Improving of an Excel macro.

Keywords: Oracle database, Oracle SQL Developer, Altova XML Spy, JIRA, WIKI, True Crypt, Eclipse, CVS, IBM Lotus Notes.

Scarlet (01/02/08-21/10/08)

Development of 2UDSL Order Form. Input form for ordering 2UDSL products for corporate users.

All information can easily be interred in 4 steps, and is validated correctly. Password and user authentication is required to fill in the form.

Keywords: Spring, Hibernate, AJAX, Oracle database, JSP, CSS ...

Cevora/VDAB/BeanPole (12/07-01/08)

Internet Banking Application as final exercise of the Java Enterprise Developer Course

Keywords: https, EID implementation, different user-interfaces (GSM/PDA/UMPC/Web), security, printable pdf-files with transaction information, Management Application ...

Skills

Bug Tracking/information:

JIRA
WIKI

Object Oriented:

- J2EE Design Patterns
- Object Oriented Design (OOD)
- Object Oriented Programming (OOP)
- Unified Modeling Language (UML)
- Java (see below)

Java / Middleware:

- JBoss, Tomcat
- Java Enterprise Edition (JEE)
- Java Standard Edition (JSE)
- Java Server Pages (JSP)
- Java Servlets
- Jakarta Struts
- Jakarta-commons (Validator, Betwixt, Lang)
- Enterprise JavaBeans (EJB3.0),
- Java Message Service (JMS)
- Remote Method Invocation (RMI),
- JUnit (testing framework)
- Abstract Window Toolkit (AWT), Swing
- CORBA
- Java Web Services (SOAP, JAX-RPC)
- Java Security
- Javadoc
- LOG4J
- Ant
- Spring
- Hibernate

Website development:

- Java Server Pages (JSP)
- Servlets
- HTML4, XHTML, Cascading Style Sheets (CSS2)
- XML, XSL, XSLT

- JDOM, SAX
- JavaScript

Editors / IDEs:

- Eclipse, NetBeans.
- Altova XML Spy
- Notepad++

Version Control:

- Concurrent Versions System (CVS)
- Subversion

Databases etc:

- JDBC
- SQL, RDBMS
- PL/SQL Oracle
- MySQL

Software Development Methodologies

- Knowledge of methodologies such as AUP, RUP, SCRUM, XP, ...

Other:

- Visual Basic.NET (Visual Studio .NET)
- Photoshop, Flash (good designer)
- Dreamweaver
- PHP (basic)
- Oracle SQL Developer
- True Crypt
- Skype

Language skills

	Speaking	Writing	Reading
Dutch	Native	Native	Native
English	Very Good	Very Good	Very Good
French	Average	Average	Average
German	Basic	Basic	Basic

Availability

Full-time from May 20th 2009

Education

Multimedia- and communication technology (Hogeschool Kortrijk PIH)

Additional Courses

Devovx Conference – European conference for Java Developers

December 10th - December 12th 2008

Several in-depth talks and ‘Tools in Action’ presentations.

Java Enterprise Developer

May 2007- February 2008

Cevora/VDAB in cooperation with BeanPole

Main Subjects:

Java: Java 5, JDBC, Java Security, Servlets, JSP, EJB, Struts, RMI/CORBA.

UML, XHTML/CSS, JavaScript, SQL, XML, Design Patterns
