

Curriculum Vitae

K.W.

Java/JEE developer

Executive summary:

A result-driven software engineer with strong technical background in Java technologies, database programming and Web development. As Sun Certified Programmer Kim Wauters is eager to deploy his knowledge and enthusiasm into an exciting Java-project. Kim is dedicated hard working perfectionist and team-player. Kim is keen on new technologies and he keeps on studying to reach a higher level as developer.

Personal Details

Name: W.
First Name: K.
Nationality: Belgian
Children : None
Date of birth: 22/04/1984
Place of birth: Dendermonde
Drivers license: B

Projects

European Commission - SIS II (23/10/08 - present)

SIS II stands for Schengen Information System version 2. It is a well known project of the European Commission and is essential a central information system that can be used by the Schengen countries (30 countries at the moment of writing) to obtain information related to border security and law enforcement. Within this project, Kim is responsible to create, debug and fine-tune tests and regression tests for the migration of data between SIS and SIS II and also trace, analyse and solve bugs in the internal testing framework.

Scarlet - IT provisioning (01/02/08-21/10/08)

Provisioning means the delivery of adsl (or voice) lines to the end client. So this means that IT/provisioning is the virtual side of this delivery. It is a core process that directs, activates or ceases other processes. This process is the whole flow from the input with the front end business team, the billing, all the way up to the setting and reserving of the virtual pads and circuits on Belgacom (with XML requests and responses) and scarlet equipment . The main tool for this is the business modeling environment “Vitria BusinessWare™”. It is a proved platform for the integration of complex business processes like order fulfillment, insurance claims and financial transactions. It also excels for specialized process applications like those found in the telecommunication- and healthcare sector. Working with vitria implies the knowledge of XML, SOAP, WSDL, EJB, JMS, JMX, JAX, an understanding of system/process analysis and off course Java itself. At IT/provisioning we also develop pl/sql packages that are integrated within our Vitria process.

Cevora/VDAB/BeanPole (12/07-01/08)

Internet Banking Application as final exercise of the Java Enterprise Developer Course
Keywords: https, EID implementation, different user-interfaces (GSM/PDA/UMPC/Web), security, printable pdf-files with transaction information, Management Application ...

Skills

Object Oriented:

- J2EE Design Patterns
- Object Oriented Design (OOD)
- Object Oriented Programming (OOP)
- Unified Modeling Language (UML)
- Java (see below)

Java / Middleware:

- JBoss, Tomcat
- Java Enterprise Edition (JEE)
- Java Standard Edition (JSE)
- Java Server Pages (JSP)
- Java Servlets
- Jakarta Struts
- Jakarta-commons (Validator, Betwixt, Lang)
- Enterprise JavaBeans (EJB3.0),
- Java Message Service (JMS)
- Remote Method Invocation (RMI),
- JUnit (testing framework)
- Abstract Window Toolkit (AWT), Swing
- CORBA
- Java Web Services (SOAP, JAX-RPC)
- Java Security
- Javadoc
- Ant

Website development:

- PHP, PHP Extension and Application Repository (PEAR)
- Java Server Pages (JSP)
- Servlets

- HTML4, XHTML, Cascading Style Sheets (CSS2)
- XML, XSL, XSLT
- JDOM, SAX
- JavaScript

Editors / IDEs:

- Eclipse, NetBeans.

Version Control:

- Concurrent Versions System (CVS)
- Subversion

Databases etc:

- JDBC
- SQL, RDBMS
- PL/SQL Oracle
- MySQL

Tools :

- Toad
- SQL developer
- TrueCrypt
- Lotus Notes
- XML spy
- FreeCommander

Software Development Methodologies

- Knowledge of methodologies such as AUP, RUP, SCRUM, XP, ...

Other:

- Visual Basic 2005, PHP
- Photoshop CS3

Planned certification

- Sun Certified Web Component Developer for the Java Platform, Enterprise Edition 5 (CX-310-083)

Language skills

	Speaking	Writing	Reading
Dutch	Native	Native	Native
English	Very Good	Very Good	Very Good
French	Good	Good	Good
German	Basic	Basic	Basic

Education

Bachelor informatics (Katho Kortrijk department VHTI)

Availability

Full-time from May 20th 2009

Additional Courses

Devoxx Conference – European conference for Java Developers

December 10th - December 12th 2008

Several in-depth talks and ‘Tools in Action’ presentations.

Java Enterprise Developer

May 2007- February 2008

Cevora/VDAB in cooperation with BeanPole

Main Subjects:

Java: Java 5, JDBC, Java Security, Servlets, JSP, EJB, Struts, RMI/CORBA.

UML, XHTML/CSS, JavaScript, SQL, XML, Design Patterns

Certification

Sun Certified Programmer for the Java Platform, Standard Edition 5.0 (83%)

**Sun Certified Programmer for the Java Platform, Standard Edition 5.0
Examination Score Report**

CANDIDATE: K W
ADDRESS:

CANDIDATE ID: SR3091860 **DATE:** January 09, 2008
REGISTRATION NUMBER: PA6DUS509D **SITE NUMBER:** BL3
EXAM: Sun Certified Programmer for the Java Platform, Standard Edition 5.0
SERIES: 055

Exam Results
Your percentage score was determined by taking the overall number of correct answers divided by the total number of questions.

There are 72 questions in this exam. You answered 60 questions correctly which gives you a score of 83%.
PASSING SCORE: 59% YOUR SCORE: 83% TEST STATUS: Pass

Assessment Section
This report shows the percentage of items in each section you answered correctly for the Sun Certified Programmer for the Java Platform, Standard Edition 5.0 exam. The following information is provided to give you feedback on your relative strengths on a per section basis.

Section Analysis	Score %
Declarations, Initialization and Scoping.....	91 %
Flow Control.....	72 %
API Contents.....	60 %
Concurrency.....	100 %
OO Concepts.....	90 %
Collections / Generics.....	90 %
Fundamentals.....	81 %

Certification testing is a means of measuring your knowledge and skill level. It can also be used to identify areas that need improvement and areas of strength. It can be used as a tool for further learning and future achievement.

Sun Educational Services offers a variety of tools to help you in your career. By logging on to our certification database, you can find scores for examinations you have taken, confirm or update your address, track your certification progress, and submit questions to the Sun Educational Services' Certification Department.

This assistance is available online at <http://www.certmanager.net/sun/>.

To help you further your growth and achievement in the Java language, Sun Educational Services offers a wide variety of instructor-led training (ILT), web-based training, and media-based training that can help

This examination was delivered at an Authorized Prometric Testing Center. To register for another Sun Microsystems exam logon to <http://www.register.prometric.com>. To learn more about Sun Microsystems certification programs visit www.prometric.com/sun.
